Work Experience

UX Intern | Michigan Multimedia

June 2018 - December 2018 | Ann Arbor, MI

Worked as a UX Intern on the Michigan Multimedia team which designs and researches websites for the University of Michigan Medical School. Responsibilities included designing wireframes, creating webpages using Drupal, conducting user interviews, creating surveys, and conducting heuristic evaluations. Additionally, provided accessibility guidance to UX Designers and Researchers.

UX Researcher & Accessibility Specialist | General Motors

July 2015 - July 2016 | Warren, MI

Worked as a User Research on the in-vehicle user experience team, where I was responsible for conducting UX research on their in-vehicle touchscreen system, Infotainment 3.0. Research responsibilities included conducting usability testing, user interviews, heuristic evaluations, contextual inquiry, and comparative analysis. Additionally provided accessibility guidance to UX Designers.

UX Intern | Usability/Accessibility Research & Consulting

December 2013 - May 2015 | East Lansing, MI

Helped create accessible and user friendly websites by performing accessibility evaluations and user research. Accessibility work included conducting accessibility reviews using WCAG 2.0 guidelines for clients. User research work included conducting usability testing, performing heuristic evaluations, and conducting stakeholder interviews.

Projects

UX Designer and Researcher | Tourtle

August 2018 - December 2018 | Ann Arbor, MI

Designed and researched a new concept which creates a more engaging and interactive experience for kids while at a museum. Project consisted of two main components: research and design. Research activities included: user interviews, creating surveys, literature reviews and observing users. Design activities included ideation, application design, prototyping, and arduino integration.
